

For people who need a hand to access the NDIS or manage their NDIS Plan

Our NDIS Services

Offering specialist care coordination services for:

- Complex health issues
- Social and welfare needs
- Long term mental health issues
- Psychosocial disability

What is the NDIS?

The National Disability Insurance Scheme (NDIS) is a new way of providing support and services for people under 65 with disability or significant impairment, to increase their independence, manage their everyday tasks, and to achieve their goals and aspirations.

Why PCCS?

Our caring and expert team of professionals has a genuine interest in helping you and making a difference. We have qualifications in medicine, social work, nursing, occupational therapy and psychology.

We have extensive experience in:

- clinical assessment
- care planning, and
- supporting people with psychosocial needs.

Our knowledge of localised health and welfare services and providers is invaluable in helping our clients access the support they need to live happy and fulfilled lives.

We listen to your needs and help you take control in making the best choices for YOU.

What support can PCCS provide?

PCCS can guide you in accessing the NDIS, as well as coordinating a range of supports you may need as outlined in your NDIS plan.

We can help you with the following:

Plan Management

If your plan includes “Improved life choices”, PCCS can manage your payments to providers, enabling you to use any provider or therapist included in your plan, even if they are not NDIS-registered.

Coordination of Supports

If your plan includes “Coordination of Support”, let PCCS take the complexity out of implementing and managing your NDIS plan.

Assessment and Support

We also offer individual assessment and support by a Nurse or Occupational Therapist (OT) if your plan includes “Improved daily living skills”.

Occupational Therapy for daily living skills

Occupational Therapy is all about supporting you to be as independent as possible to keep participating at home, work and activities that are important to you.

We work with you to get the most out of your NDIS plan; exploring options for maximum flexibility and ease to help you achieve your needs and goals.

Let us:

- Identify services that can be funded for your NDIS plan, to meet your personal and unique needs
- Get quotes for the equipment, services and supports funded in your plan
- Help you negotiate with NDIS providers, and coordinate the types and timing of services you receive
- Connect you with the community supports and services that you want and need
- Build your skills to manage your own plan, and help manage your plan in times of crisis.

Whether you're someone with a disability, a carer, a family member, or just want to learn more about the NDIS - PCCS is qualified to help you.
